[illegible]

An eventful day for the Department of Microbiology, Dhruba Chand Halder College 30th April 2024. Amidst the burning summer of the year we were fortunate to have the footsteps of honourable personalities of Microbiology in the "Meet & Greet" program which the department celebrates each year to offer the MBSI Best Student award of the session. In the session 2022-23 Trisha Naiya has been awarded the Best Student. The award was handed over by Prof Sagarmoy Ghosh, HOD, & UG- BOS Chairperson, Department of Microbiology, University of Calcutta. The Certificate for Best Student was handed over by Dr. Bipranish Kumar Tiwary, State President, MBSI- WB Chapter. The occasion was even more gracious with other personalities, like Dr. Harekrishna Jana, HOD, Department of Microbiology, Narendralal Khan Women's College, & Principal, Dr. Satyabrata Sahoo, IQAC Coordinator & HOD, Department of Bengali, Dr. Sovona Ghosh, Academic Coordinator, & HOD, Department of Economics Prof Shyamal Bandopadhyay, of DCH College.

In addition token of appreciation was given to Ankan Mondal of the same batch by the HOD, Dr. Malini Basu for his praiseworthy contribution to the department. It was handed over by Principal Sir.

Special lecture by Prof. Sagarmoy Ghosh highlighting the importance of Discipline Specific papers of Microbiology in the undergraduate level with special reference to NEP was really eye-opening. The following interactive session both with students and faculty members of the college earned huge benefit for us.

The eye-opening lecture of Dr. Tiwary encompassing the priority of taking up Microbiology in the market of job seekers was another achievement for the day.

Dr. Jana also enlightened the students about the opportunities in rural colleges like us to develop entrepreneurship models.

Some remarkable statements earned by the department from the august assembly.....

Principal Sir mentioned repeatedly that the program hosted by the department had a very hearty touch.

IQAC Coordinator mentioned that it was indeed a very enriched program. She was overwhelmed to express her gratitude to the honourable guests who have made their way to the college from different areas of WB inspite of the heat wave and miles away from their work place.

Academic Coordinator expressed heartfelt thankfulness that the Microbiology Department of the college has been the first of its kind to arrange special lecture on such a pertinent topic as Discipline Specific Area of the course right from the mouth of the UG-BOS Chairperson, of Calcutta University. He compared that just on the day when the temperature shot the highest from the last several decades, Microbiology Department has also set an exemplary event in the milestones achieved by the college.

Above all the immense coordinated activities of the MBSI student unit of the College demands a huge applause. It was a grand successful venture taken up and steered forward by the core members (pictures w portfolios posted).
