World Environment Day, 2024
An International Webinar
On

Impact of Environmental Changes on the Ecosystem of the Sundarban

Organized by Eco Club, NSS Unit and IQAC, Dhruba Chand Halder College

Patron: Dr. Satyabrata Sahoo, Principal, DCH College
Advisors: Dr. Sovona Ghosh and Dr Manika Rakshit , IQAC
joint Co-ordinator, DCH College
Convenor : Dr. Mobina Parveen, Assistant Professor,
Department of Botany, DCH College;
Joint Convenor: Dr Rupanwita Sarkar, Assistant
Professor, Department of Zoology, DCH College
Technical support: Prof. Rasidul Karim, Assistant
Professor, Department of Computer Science, DCH College

Report on the International Webinar Celebrating World Environment Day

Name of the programme: Webinar on World Environment Day

Date of the programme: 9th June, 2024

Starting time: 10:30 AM

Platform :Google meet (<https://meet.google.com/pyq-fsvr-ehm>)

Organized by: Eco Club and IQAC, Dhruba Chand Halder College

Convenor: Dr Mobina Parveen, Assistant Professor, Department of Botany, DCH College

And Dr Rupanwita Sarkar, Assistant Professor, Department of Botany, DCH College;

Technical Assistance: Prof. Rasidul Karim, Department of Computer science, DCH College

Speaker: Dr Abdullah Harun Chowdhury, Professor, Environmental Science Discipline, Khulna University, Bangladesh

Topic: Impact of Environmental Changes on the Ecosystem of the Sundarban

Participants: 107

Objective of the Webinar:

The main objective of the webinar was to raise awareness about the ecological challenges facing the Sundarbans due to environmental changes. Expert and participants explored the factors influencing this unique mangrove ecosystem, including climate change, rising sea levels, and human interventions. The event emphasized sustainable practices and conservation efforts to preserve the biodiversity of the Sundarbans.

Programme details:

The World Environment Day was celebrated through the discussion which was organized by the Eco Club and IQAC, Dhruba Chand Halder college. It was the 51st anniversary of World Environment Day, after it was established by the United Nations General Assembly in 1972. The webinar was inaugurated by, Dr Satyabrata Sahoo, the Patron of this programme and the Principal of our college, and Dr Sovona Ghosh, the advisor of this programme and the IQAC coordinator of this college. The invited speaker Dr Abdullah Harun Chowdhury gave his key note speech on Environmental Changes on the Ecosystem of the Sundarban. He explained the following key points:

- (1) **Climate Change and Rising Sea Levels:** Expert highlighted how rising temperatures and sea levels are severely affecting the mangrove forests. The saltwater intrusion

South 24 Parganas. Pin- 743372

into freshwater zones poses a threat to the flora and fauna, particularly to species adapted to low salinity.

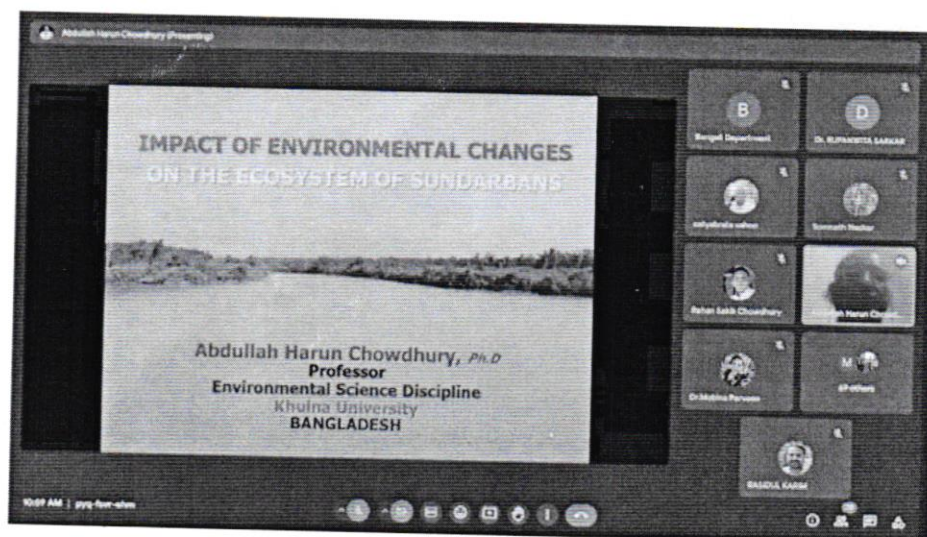

- (2) **Biodiversity Loss:** Participants discussed the potential loss of biodiversity, as certain plant and animal species may not survive the changing conditions. This includes the iconic Royal Bengal Tiger, which relies on a delicate balance within the ecosystem.
- (3) **Human Activities and Deforestation:** Speaker addressed the impact of deforestation and human encroachment on the Sundarbans. Such activities not only disrupt the habitat but also make the region more susceptible to cyclones and other natural disasters.
- (4) **Cyclones and Natural Disasters:** The Sundarbans frequently faces cyclones, which are becoming more intense due to climate change. The destruction caused by these events disrupts the ecosystem and affects the livelihoods of local communities.

Outcomes of the Webinar:

1. **Increased Awareness:** The webinar successfully raised awareness among participants about the fragile nature of the Sundarbans ecosystem and the urgent need for conservation efforts.
2. **Call for Sustainable Practices:** Expert urged participants to adopt sustainable practices that reduce environmental degradation. Suggestions included promoting eco-tourism, reducing plastic waste, and supporting afforestation initiatives.
3. **Collaborative Efforts for Conservation:** Participants were encouraged to support collaborative conservation efforts involving government agencies, environmental NGOs, and local communities.
4. **Educational Outreach:** Plans for educational outreach programs were discussed to ensure that local communities are informed about the importance of conservation and the sustainable use of resources.
