Add-On Course Summary:

As per recommendations of the NAAC peer team, the college had designed and undertaken several add-on/value – added/skill-enhancement courses of which ***Technical - Knowhows for Medical Accessories*** was one.

It was jointly organised by the Departments of Microbiology & Chemistry during the months of June-July 2021.

Duration of the Course: Approximately 30hrs.

Class Schedule: During the week-ends.

Course Coordinators: Dr. Malini Basu, HOD, Dept of Microbiology & Dr. Subodh Kumar Sahoo, Asst. Prof. Dept of Chemistry.

Participants: Both Hons & Gen stream students from Humanities, Social Sciences & Bio-Science domains. There were more than 50 applicants; however around 20 pursued the course to some extent and eventually 10 students successfully completed the course.

Focal theme of the course: Medical accessories of regular use have a high demand in the market. The course was designed with an objective to train the participants in developing entrepreneurship schemes for production of such articles. For example production of sterile absorbent cotton, surgical bandages, sanitary pads, distil water, sanitizers, oxygen concentrators etc. Some virtual lab visits were included in the course.

Besides imparting the scientific know-hows, the students were given a broad-spectrum overview about the economical and

P.O.-D. Barasat, P.S.-Jaynagar
Dist-24 Pgs. (S) Pin-743372

commercial aspects of the scheme in general, and about the sources of funding for such start-ups.

Evaluation: Students were strictly evaluated on their regularity to the class (i.e. Attendance) as well as by the project (assigned and evaluated by external examiner Dr. Monica Saha) evaluation.

Outcome: Students pursuing undergraduate courses (both honours and general) in different subjects get the opportunity to have an exposure to some unrelated field which might earn helpful know-hows in their futuristic endeavours. This was an eye-opener event for the students. This platform would eventually provide them the impetus start-up business and venture for marketing jobs as well with saleable products related to the health sector. As a lesson learnt from the pandemic times these students have had the understanding the benefits for start-ups in this hour of employment crisis.

Course Completion Certificate: After proper evaluation and grooming the successful candidates were issued certificates authenticated by the Principal, the IQAC Coordinator and the Course Coordinators of Dhruba Chand Halder College
