WORKSHOP ON COMMON METHODS FOR COLLECTION AND PRESERVATION OF INSECTS

Date of Programme: 10/02/2023

Aims and objectives:.

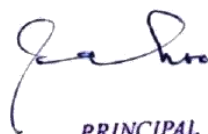

Insects, both beneficial and harmful need to be collected and preserved both for the study of their morphology, taxonomy and the role they play in the environment. Such studies help to identify their roles in economy, public health, agriculture as well as forensic science.

Descriptions:

The workshop included study and handling of different tools and equipments like collecting nets, killing bottles, fine forceps of different sizes, scissors, knives, fine hair brush, etc., chemicals for killing insects (both dry and wet), hand lenses, flash lights and different types of insect traps like light trap, food lure trap, sticky trap, water trap and suction trap. The methods of preservation were also demonstrated.

Outcome:

The students benefitted by hands on training and understanding the basics of insect collection and preservation.
