

NAME OF THE PROJECT: SURVEY FOR HPV
VACCINATION

PAPER : CC5 / Virology

SESSION: 2023- 24

DEPARTMENT: Microbiology

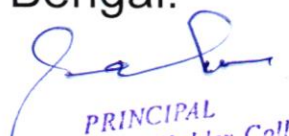

SEMESTER: 3

OBJECTIVE: To acquire basic knowledge about
“oncogenic virus”.

To understand the basic concepts of oncogene
and proto oncogene.

To raise awareness for prevention of a
predominant viral mediated disease as a model:
Cervical Cancer and promote HPV vaccination

OUTCOME: The students studying Virology in
their course curriculum had the opportunity to get
exposed to do a survey related to Cervical Cancer
caused by Human Papilloma Virus (HPV) among
the underprivileged class of girls and women
residing in the suburban areas of South Bengal.
